**ABOUT:** *The **Mark Spiers Scholarship Fund** was established in 2015 by the family of Mark Spiers to honor the memory of their husband and father, who died of GBM brain cancer at the age of 57. Mark was a dedicated husband and father who worked hard and believed in giving his two sons a quality education. In turn, the family would like to support his objective by providing assistance to reward students who are hard-working, caring, respectful, and a team player.*
